

1 User Story Implementation

This document contains the implementation of the below-mentioned user story.

1.1 User Story

- **Payment by card(US02)** : As a commuter, I want to choose the type of ticket (one way / two way / weekly pass / monthly pass) from the user interface of the ticket vending machine.
- **Formulated by** : Dhaval
- **Implemented by** : Pruthvi
- User story is implemented in HTML.
- **It consists of 5 html files.**
 1. index.html
 2. selectTicket.html
 3. selectTicketfrench.html
 4. text.html
 5. text1.html

1.2 How to run the program?

1. Double click on index.html.

1.3 Walk-through to my implementation

1. After opening index.html, it shows select the language(English/french) in which the user can select his/her preference.
2. After the language is selected system displays the type of tickets available for purchase in his/her preferred language.
3. After the ticket is selected then the process moves to payment.
