1 User Story Implementation

This document contains the implementation of the below-mentioned user story.

1.1 User Story

- **Payment by card(US03) :** As a commuter, I want to recharge my travel card because I use public transport frequently.

- **Formulated by :** Dolly

- **Implemented by :** Naren

- The user story is implemented in HTML

- For this implementation, basic HTML is used with the inclusion of ¡style¿ tag to enhance the presentation of web pages.

- **It consists of 7 .html files.**

  1. index.html
  2. InsertCard.html
  3. Recharging.html
  4. RechargeSuccess.html
  5. RechargeNotSuccess.html
  6. RemoveCard.html
  7. HomePage.html

1.2 How to run the program?

1. Double click on index.html.

1.3 Walk-through to my implementation

1. Open index.html in a browser to execute the code

2. Press the "Recharge Card" option to Recharge the travel card

3. Press the "Insert Card" option to insert your travel card. (This is for the lack of hardware.)

4. Press "Cancel" option to Cancel

5. Press the "successful" option to replicate the payment successful scenario.

6. Press the "Unsuccessful" option to replicate the payment unsuccessful scenario.

7. Press "Cancel" to Cancel

8. "Recharge successful" message is displayed.

9. Press the "Remove Card" option to remove your travel card. (This is for the lack of hardware.)
